Chichester Open Studios is a very popular event in the local annual calendar, attracting a large and devoted audience for our wide range of work.

If you are an artist living or working in or around Chichester, and would like to be part of our Open Studios, visit [www.chichesteropenstudios.org](http://www.chichesteropenstudios.org) or email [info@chichesteropenstudios.org](mailto:info@chichesteropenstudios.org) for more information.

Registration will be in Autumn for the next COS 2026 Event, sign up to our newsletter to stay up to date.

## STUDIO ETIQUETTE

**Please remember**, this is the artists place of work, and many work in a purpose-built studio or space in their home. Some share spaces at farms or in small industrial estates so also be mindful of neighbouring businesses. Remember not to walk around private spaces such as gardens or other rooms in houses.

## PHOTOGRAPHY

If you would like to photograph the artist or their work, it is essential that you ask their permission and do not replicate their work online.

The organisers and artists of Chichester Open Studios cannot accept liability for any loss, damage or injury sustained by any member of the public visiting participating Studios. Visitors should be alert to the variety of working environments, and the possible hazards, and visit Studios at their own risk.

Please supervise children carefully. Photography provided by Open Studios artists.

Since its inception in 2001, the Chichester Open Studios event has welcomed artists and art enthusiasts to the Art Trail. Over the years, artists have generously opened their studios to curious visitors and devoted art patrons. In an effort to nurture emerging talent and maintain the Trail's dynamic spirit, the Chichester Open Studios committee has implemented initiatives to support new artists.

Recognising the financial constraints that may deter emerging artists, the committee has secured funding for bursaries, enabling the remission of registration fees for seven artists, selected on the merits of their work.

We look forward to meeting you on Chichester Open Studios 2025!

### WHAT IS AN OPEN STUDIOS EVENT?

**It is a time when artists open their creative spaces to the community; where they can meet their audience in person, exploring their themes and processes with others and gain a fulfilling insight into why others are interested in their art. Visitors can learn directly from the artist, finding out what makes us tick, how we create our art works and what processes we use. Demonstrations often take place where suitable which can be a fun and exciting experience.**

Artwork will also be available to purchase; commissions are often welcome and some artists run workshops or courses where you can sign up to learn a new skill. Some of us are full-time professionals, others create on a part-time basis and some enjoy creating in their spare time. One thing is for sure, this is an incredibly artistic area with a huge talent base. All of us are passionate about the art-world and are looking forward to sharing what life is like as an artist with you.

**We would be delighted if you share your visits on social media and please tag us @chichesteropenstudios.**

**STUDIO ETIQUETTE**

**Please remember**, this is the artists place of work, and many work in a purpose-built studio or space in their home. Some share spaces at farms or in small industrial estates so also be mindful of neighbouring businesses. Remember not to walk around private spaces such as gardens or other rooms in houses.

**PHOTOGRAPHY**

If you would like to photograph the artist or their work, it is essential that you ask their permission and do not replicate their work online.

Bosham Walk is an Art & Crafts centre located in the heart of Bosham - a popular destination next to Chichester Harbour.

We sell a variety of products from unique vendors through our central till system, including art, photography, ceramics, woodcraft, clothing, glass, homeware, jewellery, books and much more.

Search for the perfect gift, enjoy our café and ice cream shop, or get creative with pottery painting in our ceramics studio.
